The clerk was instructed by the Board to write to Mr. Montgomery, and ask him if there is any Government Agency that will, in any way help us financially, to complete our water system. The town hasn't enough money, without help from some source, to finish the project. It will cost about \$5000.00 to finish the project.

Motion to accept the minutes of the previous
meeting as read, by Scott Bills and Robert
Fullerton.

The clerk read letters from Mr Montgomery
and the Municipal League, concerning our water
project, and they no of no agency that will give
us any help. There is an agency that will help
out where the project is in a war congested area,
and the water source is low, but that does not
apply to the town.

A motion was made by Bob Fullerton
and Scott Bills authorizing Mr Birk to do all he
can to promote our water system. He will contact
the Attorney General and the Rail Road Co.

The clerk was instructed to write to Mr
Ashom and ask him just what amount is
due the town on the B. C. road fund, was much
as the work hasnt been done for three years.

The U & R & W Rail Road were quite anxious
to do some work on the road that leads from
the main highway to the depot. They have
agreed to furnish the gravel and part of the labor
necessary to load the gravel. We would like
Mr Ashom's opinion as to whether the gravel
itself is adequate for the job, or would it be better
with some of the crushed binder, like that used by
the State in their road repair. And if the mixture
is better can the State Road furnish it.

Motion to accept the bills as read by Scott
Bills and Harold Chipman.
